TOWN OF FRISCO WATER DEPARTMENT

General Requirements

This regulation is adopted pursuant to Article IV of the Water Ordinance for the Town of Frisco, Colorado (Chapter 171 of the Town Code of Ordinances).

Additions to the Town of Frisco water distribution system may only be installed between April 15th and October 31. No exceptions.

This document is not intended to be a complete list of every requirement for construction in the Town of Frisco, Colorado, but is designed as a guide to the requirements for materials to be used, and for the installation of water lines (main and service), water meters, and backflow prevention devices.

This document in no way releases the owner, builder, contractor, or their agents from the responsibility to be familiar with the provisions of the water ordinance or other referenced documents and/or to meet the requirements of those documents.

It is hereby declared that the rules and regulations contained here are necessary to insure and protect the health, safety, prosperity, security, and general welfare of the residents of the Town of Frisco, Colorado.

Any area not specifically addressed will be determined by the Water Superintendent or the authorized agent inspecting the project identified.

At the time of application for any class of project, the owner or developer will be required to submit the following to the Water Department for approval:

- 1) Copy of a site plan showing proposed route of water service and sewer service.**
- 2) Copy of mechanical drawings showing building service connection(s).**
- 3) Copy of a floor plan showing proposed location of water meter assembly and proposed location of touch pad on building exterior.**
