\$ _____ = concrete \$150.00/sq.yd.

\$ _____ = Bond Due

***Please note; applicant guarantees all of the work for two years from FINAL INSPECTION DATE.**

PLEASE READ CAREFULLY:

Utility locations within public rights of way are the sole responsibility of the contractor, and shall be made prior to any excavation. All utility locates shall be in accordance with the Colorado Subsurface Utility Law SB 18-167.

This permit is granted expressly subject to the condition, specification and penalties set forth by the Town of Frisco regulations. All labor and materials shall be furnished by the applicant, contractor, developer, owner, or governmental agency who then assumes full responsibility and liability for any and all damages or claims resulting from said excavation; and hereby agrees to pay for any and all repairs that must be made to this portion of the roadway or right-of-way resulting from the excavation.

It is understood that the applicant, contractor, developer, owner or governmental agencies, its employees, agents and subcontractors are covered by worker's compensation insurance, and that the applicant, contractor, developer, owner or governmental agency indemnify and hold harmless the Town of Frisco from any and all claims of any nature whatsoever which thereto including costs of suits and attorney's fees incurred by the Town should litigation arise from said claims. This understanding and agreement will be binding upon your respective heirs, executors, administrators and assigns.

Authority for the administration and enforcement of the Access Permit is derived from the 1973 Colorado Revised Statutes Sections: 37-84-103, 38-5-101, 42-4-101 through 42-4-513, 42-4-1207,43-2-111, 43-2-147, 43-5-301, 43-5-307, and 32-1-1006.

Asphalt/Concrete Cuts:

-All concrete curb and gutter and sidewalks shall be removed to the nearest tooled joint on either side of the trench. All concrete shall be saw cut full depth at each joint.

-Asphalt cuts from edge to center line must be patched to center line. Any cuts beyond center line must be patched completely across the street. Asphalt cuts shall be either parallel or perpendicular to the roadway. All asphalt areas to be removed shall be saw cut at full depth along the limits of the removal area prior to removal. Infrared pavement patching will be required for all pavement patches in rec paths and when the existing roadway asphalt is less than three (3) years old. (Per Town Code, Section 87-10 A & B) Asphalt cuts shall be patched back within 20 days of completion of work. (Per Town Code, Section 87-5 C.)

Excavated Material: All excavated materials shall stay on property, not to be stored in the right-of-way. (Per Town Code, Section 127-39)

***No excavations shall be left open overnight unless approved by the Public Works Director.**

***Additional requirements for construction/restoration include:**

-Compaction (min. 95%)

-Reconstruction of base/sub-base

*Shoulders – minimum of six inches (6”) of road base to achieve final grade

*Asphalt – minimum of six inches plus the depth of asphalt to achieve final grade

-Re-grading of shoulders/borrow ditch

-Culvert installations shall have a minimum 12” cover of compacted Class 6 road base, and material must be approved by the Public Works Department.

***Work must only be done pursuant to the Permit Monday through Friday between 7 a.m. and 7 p.m. unless otherwise approved by the Public Works Director.**

***If this permit is denied, the fee shall not be refunded as set forth in Town Code Chapter 87-5.**
