

COVID-19 SMALL JOB SITE SAFETY PLAN

(Revised April 27, 2020)

- Carpooling is not allowed, unless you are roommates.
- Contractors and Property owners, including their agents, lessees, and subcontractors, are required to ensure that all workers have access to face coverings, are instructed to wear face coverings during the performance of all work, and are instructed to maintain social distancing of at least 6 feet, whenever possible, on all their Construction Sites.
- All workers shall abide by social distancing of no less than 6'. Practice proper hand hygiene. Stay home if sick.
- General contractor will monitor and document all persons working on their job site with a log sheet every day. All workers with symptoms will be sent home and follow CDC guidelines.
- All sites are restricted to < 10 workers per site.
- The general contractor shall provide hand wash stations or sanitizer at all porta-potty locations.
- The general contractor will wipe down and sanitize all high touch areas daily.
- The general contractor will walk all inspections for completion and consistency with the approved plans and cluster inspections together if possible.
- By signing this document, you are agreeing to follow the guidelines listed above. If an inspector makes observation of these guidelines not being followed, inspection services will not be provided.
