

Frisco Town Code, Chapter 180, Section 6.16, regulates Outdoor Lighting. Outdoor lighting fixtures installed for new structures, the expansion or remodeling of existing structures, as well as new or replaced lighting fixtures shall meet the following requirements:

- Exterior light fixtures shall conform to the Illuminating Engineer Society of North America (IESNA) criteria for full cut-off fixtures. Any structural part of the fixture providing this cutoff angle must be permanently affixed.
- Outdoor light fixtures shall be positioned so that there is no direct light emission onto adjacent properties.
- Wherever practicable, it is encouraged that lighting installations include timers, dimmers, and/or sensors to reduce overall energy consumption and unnecessary lighting.
- The use of energy efficiency technologies is encouraged.

Acceptable
Fixtures that shield the light source to minimize glare and light trespass

Unacceptable
Fixtures that produce glare and light trespass
