Town of Breckenridge

Overview:

The Town of Breckenridge has multiple partners including citizens, taxpayers, businesses, guests, employees and other governmental agencies. It is important that the Town strengthen relationships with our partners by adopting clear and comprehensive policies. The Town's grant process was created as a means to fairly, equitably and consistently provide funding and in-kind services to the community.

We support charitable organizations that enhance and serve the Breckenridge/Upper Blue area through a Grant Application Program. Grants are awarded once a year to agencies providing programs, services and/or events in the areas of health and human service, art and culture, education, environment, and sports.

The Town announces its grant process in mid to late June through the Summit Daily News and via electronic media, including our website, www.townofbreckenridge.com/Grants2024. The guidelines and grant applications are generally available at least eight weeks prior to the grant deadline and can be located on the Town's website under "I Want To Apply". Notices are not sent to past funding recipients; it is the responsibility of the organization to monitor when the guidelines and applications are available.

Types of Grants:

1. Cash
2. In-Kind

Priority Investments:

Support is available to charitable organizations that enhance and serve the Breckenridge / Upper Blue area. The Town invests in local non-profits with programs, initiatives and events that are aligned with our strategies and demonstrate how they can make an impact for our community.

Strategic Alignment:

Financial and Programmatic Capacity - Successful applicants will show evidence that they are stable, have a solid financial and management team, a strong balance sheet and programming plans that illustrates the grant will be sustained beyond the Town's investment.

Leadership - Successful applicants will have strong leadership that is collaborative and knowledgeable about the community and the field in which they operate.

Measurable Results - We place priority on organizations that are able to clearly articulate organizational goals, present a clear plan for achieving results, and track outcomes and impact on the people served.

Accepted applications for In-Kind will be forwarded to affected departments or entity for review and recommendation, and then by Grants/Scholarship Committee.

Criteria - After considering how strongly the application fits the Town Council’s strategies and aligns with the Town’s core values, requests will be evaluated according to the following criteria:
