

## Getting Fingerprinted: Liquor License Applicants

*Note: this information is limited to applicants to apply for a Liquor License within the Town limits of Frisco, Colorado.*

The purpose of getting fingerprinted for liquor license applications is to obtain a fingerprint-based Colorado statewide, and nationwide criminal history check. Per State Law and Regulation, anyone who owns at least 10% of the LLC, **and** whomever will be listed as the Registered Manager for the liquor license (unless that person is one of the same people who own at least 10% of the applying entity), must be fingerprinted.

Applicants' service code is 25YQ6K or "Liquor Licensing – Local City CRS 44-3-307" **do not use any other code and confirm at the time of fingerprinting that the code is entered, to prevent having to pay and take the time to get fingerprinted again.**

When you create the appointment, you will be asked to select the recipient of the results, you must select **Town of Frisco CLERK**, **do NOT select Town of Frisco Police Department, Summit County, or the State of Colorado.** Only select Town of Frisco CLERK, and ensure staff at the location double-check this when you arrive at your appointment. If this selection is made incorrectly, I cannot retrieve your background check results from another agency, so be sure to check and double-check your selection as Town of Frisco CLERK.

There are only 2 Summit County, Colorado locations that can perform fingerprinting for this purpose. The Town of Frisco Police Department is **not one of them:**

**Summit County Sheriff's Office** in Breckenridge: make appointment through [Identogo.com](https://www.identogo.com)  
**Copy Copy** in Frisco: make appointment through [ColoradoFingerprinting.com](https://www.ColoradoFingerprinting.com)

Once you are fingerprinted, within 24 hours your criminal history results report will be securely transmitted to me, the Town Clerk.
