**Subject:** Parking at 602 Galena

Hello Emily,

I live at 524 Galena St and wanted to send a note saying that I do not think it is a good idea to have people park in this lot. There have been folks parking in this lot for the last two years and I think if you make it an actual option, there will be many more that will be using this lot without adequate services. I see people going to the bathroom right outside their vehicles because there is no access to restrooms. Also, they are using other people's trash cans for their trash. Although it is hard for people to find housing, I do not wish to have a homeless community at my front doorstep. I have a daughter who I worry about and would respectfully ask that the town council rethinks this idea. The 10 to 20 homeless people that the lot would shelter does not solve workforce issues in any significant way.

Thank you for listening.

If you would like to hear more insight into my thoughts, you may call me on my cell at 970.389.3587

James
