

Frisco Arts and Culture Council (FACC) Minutes  
December 14, 2023 1:00pm-3:00pm in Frisco Town Hall in Council Chambers

Present- Megan Testin, Melissa Sherburne, Diane Harty Schlaefer, Todd Altschuler, Daymon Pascual, Allison Lindsey, Jamie Callahan, Andy Held, Rose Gorrell, and Vanessa Agee.

- Approval of November 10, 2023, meeting minutes- unanimous approval
- FACC member updates
  - Melissa Sherburne- Summit County, Utah Public Art Tunnel Mural Project:  
<https://www.summitcounty.org/945/Public-Art-Projects>
  - Put music on the agenda for January discussion
- Staff updates- 30 minutes
  - Project Tracker: [https://friscoco-my.sharepoint.com/:x/g/personal/roseg\\_townoffrisco\\_com/EbsULdalXZNFmhH8-w7bbf4BjHKIF\\_Vlmqzzofz6EgHlcQ?e=oCkDoC-](https://friscoco-my.sharepoint.com/:x/g/personal/roseg_townoffrisco_com/EbsULdalXZNFmhH8-w7bbf4BjHKIF_Vlmqzzofz6EgHlcQ?e=oCkDoC-) Will be updated with projects and budget needs from each meeting
  - Monthly Meetings for Winter 2024- Day/Time- definitely need to meet in January and need to reassess for February- will send out the Doodle poll for meetings from January-May 2024
  - Joint work session with Town Council and FACC on February 12, 2024
  - Sculpture Care and Maintenance Plan
    - Pacific Coast Conservation proposal for ongoing maintenance and treatment has been received. Staff recommendation is for members to review the proposal and return in January to discuss budget and timeline.
  - Frozen Frisco Progress
    - Andy Held provided the conceptual design for the ice campsite, and staff provided to Colorado Ice Works.
    - Andy Held will be working with Jim Testin to build an igloo with a large opening in the top.
    - Just do wassail with Tuaca and brandy for the reception
    - Can Nordic push some snow to the Frozen Frisco area and flatten the area?
    - Do a one sheeter to get volunteer artists- supply stipend \$50 and the Town could have design books and buckets available at the Frisco Historic Park and just have this group encourage artistic friends. Make northside of Nordic lodge available for freezing and let staff know.
  - Items from the November meeting:

- Slopeside Hall: Diane McBride confirmed with Addison Canino, Town of Frisco Capital Project Senior Manager, that there is a callout for future art installation space north of the Frisco Adventure Park Day Lodge. There is also standard event power to the new event area.
    - Project Calendar: FACC members asked staff to return with an RFP/Project calendar to guide FACC priorities. Project timeline for upcoming murals is listed in the project agenda item.
  - Upcoming Year One projects/tasks
    - Goal 2: Let's Create- Art Labs
    - Goal 2: Youth Homebase: Give Voice- Youth Sound & Light Workshop
    - Visit and connect with local art groups: Silverthorne, Breck Create, etc.
- Project Discussion
  - 2024 Mural Projects- 45 minutes- - move this discussion to January 2024 FACC meeting
    - Recreational Pathway Murals- Move this discussion to the January 2024 discussion
    - Adventure Park Tunnel mural
      - Update from Andy Held- provided measurements for entrances and not the interior- mentioned that it could be challenging to paint the interior as it is ribbed metal
      - Update from staff on CDOT process- we need to provide a design in order for it to be approved
      - Design feedback from the FACC
        - Cohesive design in the tunnel and outside or treat them like three different projects?
          - Consensus is to make it cohesive- simpler and brighter inside and more complicated on the outside. Respect that the tunnel is a place where you transition and move. Consider using a contractor to prime the interior, rather than the artist- work with the artist to determine best course for prep.
          - Do not incorporate a public process in the selection and RFP, as the FACC is already a community/public process
          - Theme selection- plant seeds of inspiration around what is valued- inclusion of youth and residents in the interior mural process, but keep it open ended in terms of theme- embrace surprise, unique, and the funky character of Frisco. Provide a creative brief in the RFP- "new, hard to find location, etc..." Do not want mountain/nature realism or political statements.
          - Reach- Open to local, state or national artists
          - Budget- \$20k-\$30k budget
      - Review staff-recommended RFP schedule:
        - January/February 2024- Consider the role of youth and community engagement, research existing tunnel projects, and discuss ideas.
        - March 2024- FACC reviews RFP draft. RFP goes out with 4-week deadline

- April 2024- FACC reviews applications and works with artist(s) on the final design
    - May/June 2024- FACC finalizes selection, and CDOT proposal goes out
  - Skate Park murals/art installations- move this discussion to future FACC meeting
    - Update from staff on mural opportunities
      - There is an opportunity to “paint a bowl”- would need to be redone on a semi-frequent basis based on wear and tear. Perhaps an annual kick off to the Skate Park opening? Have the Skate Park community paint a bowl with a local artist that reflects skate culture and aesthetics?
      - Evergreen Skateparks believes it is doable with latex paint. Primary concern for safety would be the impact to depth perception which should be minimal.
    - Process
      - Would FACC like to include community engagement initiatives in this project? An example would be hosting a pop-up at the Skate Park to invite ideas and generate excitement from the primary users of the space.
- Community Event Discussion- 45 minutes
  - Community Event Discussion
    - General consensus- a movie night with a kick-off band
    - Have a wishing well with promises, etc...
    - Food trucks
    - Make and take art project- origami possibly
    - Decide on accessible movie- FACC to come back with three movie ideas for January meeting
    - Preferred date- Saturday, August 24, 2024
- Adjourn
